

# ABDUL REHMAN

## FRONTEND DEVELOPER

### SUMMARY

Frontend Developer with 1+ year of experience in crafting responsive, high-performance web applications using HTML, CSS, JavaScript, React.js, and Tailwind CSS. Skilled in building intuitive, user-focused interfaces, optimizing web performance, and integrating RESTful APIs for dynamic, scalable solutions. Proven ability to collaborate across teams, implement reusable component-based architectures, and deliver clean, maintainable code in fast-paced environments.

**Address:**

21-A Siyaal Street,  
Shama, Samnabad Lahore

### EDUCATION

**Bachelor of Science in Computer Science | 2021-2025**

*University of Punjab, Lahore*

- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Systems, Computer Networks, Software Engineering, Web Development, Artificial Intelligence, Machine Learning

**ICS in Statistics | 2019-2021**

*Government College of Science, Lahore*

- Relevant Coursework: Fundamentals of Computer Science, Introduction to Programming, Statistics, Mathematics, English, Physics

### WORK EXPERIENCE

**Frontend Developer | 2024-2025**

*WellCreator*

- Collaborated with designers and backend developers to implement user-friendly features.
- Developed and maintained responsive web interfaces using React.js, Tailwind CSS, and JavaScript.
- Optimized website performance and improved page load times through code refactoring and lazy loading.

### PROJECTS

**abdul311re.github.io/AbdulRehman**

*Personal Portfolio*

Designed and developed a personal portfolio website to showcase my projects and technical skills. The frontend was built using React.js with Tailwind CSS, combining Material UI and shadcn/ui for a clean, responsive user interface. Backend functionality was handled using Node.js and SQL, enabling dynamic content management. I utilized React Context API for efficient state management across components. On the "Game Development" page, I integrated a 3D model with scroll-triggered animations to create an engaging, interactive experience that demonstrates my interest in immersive web design.

**Wellcreator.com**

*At wellcreator (2024)*

Contributed to the design and development of the company's official website using React.js, integrating Bootstrap and Material UI to ensure a responsive, accessible, and visually consistent user interface. Collaborated with cross-functional teams to implement key features, optimize performance, and maintain design integrity across devices. Focused on clean, modular code and component reusability to support scalability and long-term maintainability of the frontend architecture.

### SKILLS

- HTML • CSS • JavaScript • React.js • TailwindCSS • Bootstrap • Github & Git
- Bitbucket
